Franklin Township Council
475 DeMott Lane
Somerset, NJ 08873

To Whom It May Concern:

I know that in recent months the pros and cons of full utilization of our local TV station FTTV Channel 25 has been the subject of much discussion from the public-at-large as well as the Council itself. That's why the executive committee and the members of the JFK Democratic Club want to make its wishes known to you, the Council. We feel that public discussion of any issue, especially the televising of various township meetings such as the Planning Board and the Zoning Board, can do nothing but make the public ***more aware and knowledgeable of what is happening in our town.***

Consequently, the executive board, with the unanimous backing of our membership, heartily endorses the idea of "televising" aforementioned township meetings such as the "Planning and Zoning Board" meetings just as soon as is humanly possible.

Naturally, we hope that our body of voters has an impact on the decision making process of the Council and we look forward to your positive and speedy approval of this idea that is meant to inform and educate the public-at-large for the good of this great township.

We here at the JFK Democratic Club thank you in advance for your help and cooperation in this important matter.

Sincerely Yours,

Ray Betterbid
President
